Thanks Ravi.

(b) (5)

Unless a big problem arises today, I'm going to put it into clearance tomorrow and I would be happy to hear your thought on optics on Monday and I can fiddle with that then. The vertical format of the poster forced me to move everything around so perhaps there are slightly better ways to arrange things.

Thanks,
Tom

Tom:

Thank you for including me on the poster. I liked this poster very much, it presents the WOE in a nice visual manner. I will have some comments perhaps to help with the optics bu

Hi All,

Back in March when we had a poster at SOT on formaldehyde and upper respiratory cancer, I polled everyone at that time about submitting the same material at another meeting and you all agreed.

I've re-arranged things a bit (this meeting has tall and narrow posters rather than SOT which was shorter and wider) but the evidentiary material is the same as it was for SOT. I did reread the NAS comments on the URT cancer and carefully tailored the text in the Abstract and Conclusion boxes to acknowledge their comments.

I recommend printing it on 8.5 by 14 paper and clicking on "shrink to fit".

Please let me know if you have any comments or questions as I am ready to submit the poster for clearance and would like to do so today or tomorrow. Please let me know of any issues by COB today.

Thanks,
Tom

I know everyone is busy now with SOT but the rest of the world keeps moving.

I am proposing to re-submit our poster to the next meeting of the International Society for Environmental Epidemiology in September. I have revised our previous abstract accordingly.

Subject: Draft SOT poster on URT cancers

All:

I have just circulated printed copies of a draft of our poster for SOT. Please let me know as soon as possible if you will have comments. This project fell behind in the queue relative to Libby activities but I think that it should be almost complete and ready for clearance once I have heard from everyone whose name appears on it.

Here is an electronic copy if you want to zoom in and forgot to bring your magnifying glass.
